## ASSOCIATED PRESS REPORTS

WEDNESDAY, OCTOBER 4, 1916

## SATURDAY'S GAMES

Thousands of football followers in the south will watch Saturday's scores for some ray of hope for future successes of their favorite teams. So far as we have been able to learn from the games played thus far, there is very little difference in the strength of the eleven this fall and last, except that Davidson is a little better and that Virginia apparently is a little off color. But don't worry about Virginia. They will get the old men back if it takes half of the fall.

The Agricultural and Mechanical College ought to win from Davidson in Charlotte Saturday, but the Presbyterians will score. Later in the season the farmers would win by a healthy margin, but not now. To eke out a victory will be worth while, for Davidson, always possessing the punch, has it in large assortments. They will be hard to handle.

Carolina should hold Princeton to three touchdowns. The Tigers have improved since last year and the Tar Heels are just a bit stronger, with Folger in the backfield. Yale should handle Virginia easily also.

Washington and Lee has hopes of beating the army, and will make the score close. Whoever beats the "Generals" this season will have a great team.

We could make more noise than the state last fall to approximate the Thanksgiving results, and we could do it right now if all the colleges concerned would play only the material they have on the campus at this time.

Our readers will have to content themselves without the scores in the world series beginning Saturday. We gave reports last fall, but the paper was late every day, and we felt then and feel now that it is more important to place the paper in the homes of the people at a reasonable hour than to wait for the baseball results. Several of our subscribers have expressed like sentiments. The score will be found down street and the Record will have the games by innings.

Charlotte is to have a circus on October 16, and that will draw a crowd from this section, especially since no shows are to come this way. Last fall Hickory had three circuses, but the destruction of railway bridges has caused the Southern, it is inferred, to decline to haul heavy trains over the temporary structures in this section.

The Springfield Republican probably is the ablest edited paper in the United States, the New York World not excepted, and the Republican is fair in its treatment of public questions. This year it is giving Woodrow Wilson mighty support and of a kind that ought to help in a state like Massachusetts.

And Sweden has difficulty in observing her neutrality. A country whose people favor one side or the other is up against it for fair, and yet we would not give much for a people who wouldn't take sides, even if they get on the wrong track.

It must be rather discouraging to the German people to learn that every time Zeppelins raid England one or more are missing, especially in view of the fact that nobody knows how much damage was done to the enemy.

In deciding to have an expert examine the Brookford bridge, the county commissioners did exactly right. If there is any fault in the construction of base of pier, that fault should be found and corrected.

"Where does your income go?" asks the News and Observer's demonstrator in cooking. Dear lady, you should not be so inquisitive.

The allies might have captured two or three merchant submarines, but the sailings are mighty far apart, at any rate.

We could make more noise than those sympathetic strikers in New York.

Wake county Republicans should be thankful that they were unable to secede the auditorium for Mr. Frank A. Linney's speech, as the big building will seat 5,000 persons and the crowd that filled the court house would have appeared like scattered sons in the larger structure.

The man Butt, who shot his wife and several others at Marion some time ago and who later committed suicide, saved the state a good deal of expense and his relatives a lot of worry.

With ex-presidents, presidents and presidential candidates saying about all the hard things possible about the opposite party, the campaign may be said to be roaring to a climax.

The Statesville Landmark does not believe anybody can honestly condone the mileage graft of congressmen; but it is pork of long standing and a good deal more of hard knocking will be required before congressmen can be jarred loose.

Those European people who have been running the clock up an hour can now return to the same old time.

While there's no frost, there's hope.

## NIGHT SUMMARY

London, Oct. 4.—Although the Rumanians continue to gain ground against the Austro-Germans at various points in Transylvania, the situation in Dobruja, which has at-

tained added interests since the crossing of the Danube into Bulgaria by Rumanian forces, remains uncertain. Bucharest says that violent fighting continues all along the line south of the railroad running from Constantza to the Danube, with the Teutonic allies offering stubborn resistance to the Rumanian and Russian forces. Nothing is vouchsafed, however, concerning the troops which invaded Bulgaria.

Sofia says that only "several battalions" of Rumanians made their way across the river and Berlin reports the destruction behind them by German monitors of the pontoon bridges over which they passed. An unofficial report from Rome asserts that Field Marshal von Mackensen has ordered evacuation of the Dobruja fortresses of Silistria and Turkukal, recently captured by the Teutonic allies, in the fear of their being enveloped by the Rumanians.

Heavy rains are interfering with the activities of the British and French armies of the Somme region of France, but nevertheless Paris records the capture of an important trench north of Rancourt and the taking of additional prisoners, while London says the fighting at Eaucourt L'Abbaye "is proceeding satisfactorily."

Violent fighting has been in progress in Russia, west of Lusk, and in Galicia, in the region of the Zlota Lipa river. In the latter region, according to Petrograd, neither the Russians nor the Teutonic allies have been able to gain any marked advantage. West of Lusk, according to Petrograd, the Russians made advances but Berlin reports that all attacks here were repulsed, the Russians suffering exceptionally heavy casualty. In the attacks, says Berlin, which were preceded by terrific bombardment, the Russian guard made 17 unsuccessful attacks and

another division made 12. As regards the fighting in Macedonia Sofia admits that the heavy artillery fire of the Serbs in the region of Kaimakacalan height caused the Bulgarians to withdraw to the Moglenia valley in order to avoid unnecessary losses, but asserts that entente attacks elsewhere along the front were repulsed.

Berlin records an advance by the Austro-Germans against the British, who recently crossed the Struma north-west of Lake Thahnos while official advices from Paris say the Bulgarians have abandoned several positions in the Starko Grob and Brody river regions and that four towns northeast of Florina in Greece have been occupied by entente allies.

In Albania according to an Athens dispatch, the Italian military authorities have occupied Argyro Castro, having ordered the Greek military officials there to evacuate the town.

Except for the capture by the Italians of two lofty peaks held by the Austrians and a continuation of the heavy bombardment by the Austrians of Carso front in the hands of the Italians, there has been little activity in the Austro-Italian theatre.

The Greek situation continues to develop, King Constantine, according to an Athens dispatch, has in his hands the resignations of those of the cabinet except those of the premier and the foreign minister. It is probable that the new cabinet will contain several supporters of former Premier Venizelos, who is in favor of Greece's entry into the war on the side of the entente allies.

# DODGE BROTHERS MOTOR CAR

What distinguishes it and gives it character is the way it is made, and the degree to which the possibilities of a car at \$785 have been developed, in point of commodiousness for the passengers, service, sturdiness, and general appearance. It is sold with everything that could be asked for in the way of equipment, including electric lighting and starting, one-man top, and windshield. There has been no skimping at one place in order to aggrandize a flashy or eye-catching feature at another, and generous measure is to be seen in even the small details.

For the person who wants to get ahead, now is the golden opportunity, and every thoughtful person will see the wisdom of laying by something for the rainy day that always comes.

The young man who wastes the best earning period of his life without getting a start is handicapped throughout his life, while a little capital laid by in times of prosperity like these will help him over many a tight place.

The easiest and safest way to save money is to open a bank account, spend a little less than you make, and keep adding to your balance until an opportunity for investment comes.
